美国**Angel Studios**在全美上映了电影“Sight” (angel.com/sight)。本片是基于美国爱尔眼科CEO王明旭教授（哈佛MIT医学博士，激光物理博士）的传记“From Darkness to Sight”而改编拍摄的，讲的是一位从中国来的留学生与种族歧视作斗争，努力奋斗，并最终找到了科学和信仰的共同点并发明了一个为世界55个国家的盲人复明的新技术的故事。

王明旭医学激光双博士简介:

好莱坞华人故事得奖大片“Sight”的原型王明旭是美国哈佛医学院和麻省理工学院联合医学博士及特级优等生，激光物理博士，美国FDA眼科审查委员会前委员(华人历史上第一位)，世界最大的眼科集团爱尔眼科医院美国分部的CEO，美国迈哈里医学院临床教授以及王明旭视力复明基金会创始人。

王博士撰写了10本英文原著眼科教科书（7本翻译成了中文）。他发明了羊膜隐型眼镜（被全世界广泛运用），完成了世界第一例激光人工角膜手术，并发表了120多篇学术论文（其中包括以第一作者发表在国际最有权威的自然杂志上）。

王博士做了5万5千多例激光眼科手术（其中包括4千多个医生），他的病人来自于美国40几个州以及全世界55个国家。王博士获得了美国眼科协会成就奖以及美国华人医学会终身成就奖

Dr. Ming Wang, a **Harvard & MIT graduate** (MD, *magna cum laude*), is one of the few laser eye surgeons in the world today who hold a doctorate degree in laser physics. He has performed over 55,000 procedures including on over 4,000 doctors. The **film “Sight”** is based on Dr. Wang’s autobiography “From Darkness to Sight”, co-starring Greg Kinnear.

As a teenager, Ming suffered greatly in China and came to America with only \$50 and earned **two doctorate degrees**, one in laser physics and one in medicine, and graduated with the highest honors from Harvard Medical School and MIT.

Amniotic membrane contact lens, which Dr. Wang has invented and holds two U.S. patents, has now been used by tens of thousands of eye doctors throughout the world and millions of patients have had their eyesight restored.

Wang Foundation for Sight Restoration has helped patients from over 40 states in the U.S. and 55 countries, with all sight restoration surgeries performed free-of-charge. Dr. Wang was named the Kiwanis **Nashvillian of the Year** for his lifelong dedication to help blind orphaned children from around the world.

The screenshot shows the website for Wang Vision Institute. The main article is titled "Amniotic membrane contact lens (AMCL) Wang Vision 3D cataract and LASIK Center, Nashville, Tennessee". The sub-headline reads "Tapping the fountain of youth A new treatment for dry eyes using the amniotic membrane contact lens". A red circle highlights the text: "Wang Vision is the ONLY center in the world that offers the new Amniotic Membrane Contact Lens (AMCL) to treat dry eyes. Dr. Wang invented the technology, published a scientific paper in 2014, and obtained two U.S. patent (patent nos. 5,932,205 and 6,443,315)".

Below the article, there are several sections: "Faith and science: Friends or foes?", "Amniotic membrane contact lenses patient cases/clinical and procedural protocol", "Ch 2/ABC AMCL story", and "An AMCL story".

On the right side of the page, there are several promotional banners and a "Free seminar" announcement for "3D LASIK 3D Laser, Karma & Raindro" on Thursday, 1/12, 6:30pm - 8:30pm. The seminar is for 25% off, limited to 2 guests, and includes a seminar or consultation.

Wang Foundation for Sight Restoration From Darkness to Sight

Mission

The Wang Foundation for Sight Restoration is a 501(c) (3) charitable organization that helps blind patients from all over the world (from over 55 countries to date) in their quest for sight.

History

The foundation doctors performed the world's first laser-artificial cornea implantation, a new technology developed to restore vision in terminally corneal blind patients. They also published the world's first scientific paper that demonstrated the reduction of corneal scar and apoptosis after amniotic membrane graft.

Your help

Although these surgeries are performed free of charge by our doctors, we need your help in aiding travel, lodging and hospital expenses so that these patients' world will no longer remain in darkness. All proceeds from the Eye Ball will go to help give these blind patients the chance to see again.

We work hard to succeed

**But, it cannot be just limited to benefitting ourselves,
it needs to benefit the whole country and everyone.**

America's #1 issues

Immigration (Latino Americans)

Affirmative Action (African Americans)

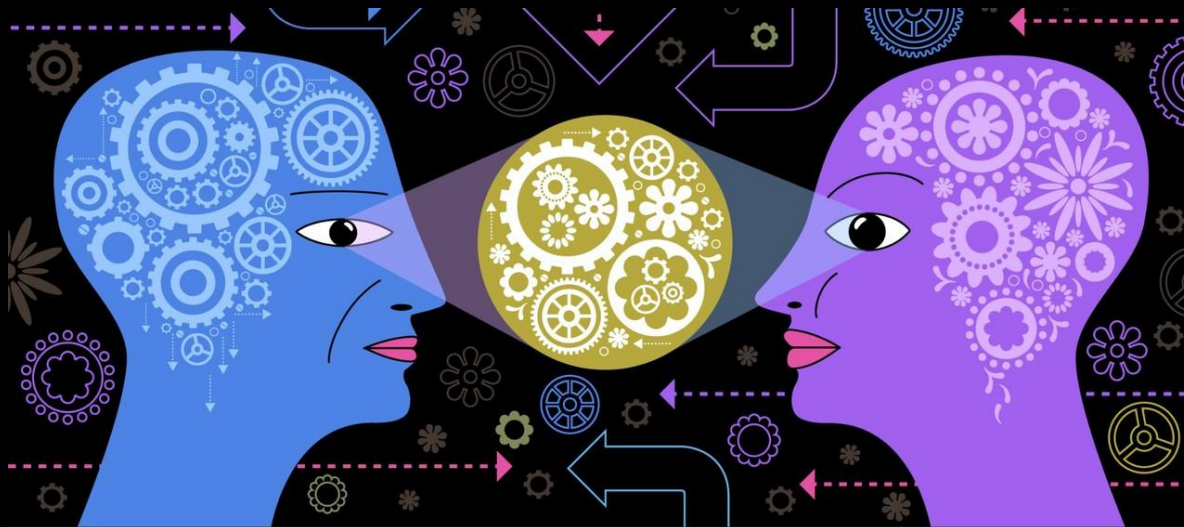

A common ground that respects and rewards (Asian Americans)

Restoring America's tradition (White Americans)

What is common ground?

Is it just a compromise?

No. Common ground is not a compromise;

Common ground is the seeking of TRUTH!

**Common ground is not a compromise;
Common ground is the seeking of TRUTH!**

E.g., Gun violence

- **Should we focus on mental illness treatment?**
- **Or, should we focus on reducing guns?**

Well, the **common ground here is that we all want to reduce gun-related DEATH!**

Do a one-year experiment:

City A: Focuses on mental illness treatment;

City B: Focuses on reducing guns.

One year later, see which approach worked BETTER (and THAT is the **TRUTH!)**

**Common ground is not a compromise;
Common ground is the seeking of TRUTH!**

COMMON GROUND NETWORK

Building Bridges, Breaking Barriers

[Introductory Video](#)

We teach individuals and organizations the Common Ground-Seeking System to enable them to be more successful in finding common ground and solutions in the midst of conflicts.

WHERE are we as Chinese Americans on the national landscape?

WHY is America no longer the country that we came here for?

WHO are we as Chinese Americans, and **WHY** does America need us the most right now?

HOW can we stand up, **WHAT** should we do, to tell our stories?

WHAT should be our #1 issue as Chinese Americans?

WHAT is the first step, to begin the process of participation, contribution and ultimately leading the country?

Vote, vote and vote!

**From SUPPORTING to BEING leaders
who build common ground that
respects all races and rewards hard work**

美国**Angel Studios**在全美上映了电影 **“Sight”** (angel.com/sight)。本片是基于美国爱尔眼科CEO王明旭教授（哈佛MIT医学博士，激光物理博士）的传记 **“From Darkness to Sight”** 而改编拍摄的，讲的是一位从中国来的留学生与种族歧视作斗争，努力奋斗，并最终找到了科学和信仰的共同点并发明了一个为世界**55**个国家的盲人复明的新技术的故事。

Q&A now!

Please send your **questions** to the **host** in the chat room.

Anyone who wants to attack me (MIT, amniotic membrane contact lens (AMCL)), please do your due diligence and find out about the FACT first (**read my book!**) Yes I did graduate from MIT; yes it is just a featured film not a documentary (**read my book!**); yes I did **FUND** the entire national tour (and no CCP involvement at all!); yes the CR has to be toned down to protect American film makers (but **read my book!**); and yes I did donate my AMCL patent to the world (and even though it is now a \$5 billion industry, millions' eyesight benefitted from around the world, I did not make a cent)! Get over it! I did! ☺

Whom one votes for 100% a **privacy** here in America. So please don't ask, and you don't have to tell either!

Be **civil**. "I may not agree with what you say, but I will defend to my death your right to say it!"

Though I am myself a conservative Christian, I do respect everyone, and respect you for who you are! Our ultimate **COMMON GROUND** is our **shared humanity**.
